club.

EXPERIENCE

OUTLINE COLLABORATOR

Feb 2021 – Current | Contributions

- **Invited to collaborate** on the project.
- Appreciated by maintainer for my quick **learning ability** and **proactive willingness to take work on my plate**.

BOTBAKERY FULL STACK DEVELOPER INTERN

Jan 2020 – July 2020 | Experience Letter

- Developed an automation tool that **saved approx 120k rupees per annum**.
- **Contributed to 2 live projects** that helped to develop a web presence for our clients.
- Worked extensively with **4-5 third party services** and integrated them to create an **optimized workflow for clients**.
- Conducted quality checks for conversion friendliness and response to mobile screens.
- Efficiently **communicated with clients** and helped in building cordial business relations
- **Participated in the Hiring Process** by reviewing the application of candidates.
- Contributed to the research of **BotBakery Labs**.

PROJECTS

GITHUB BATTLE

- GitHub battle fetches top 30 repositories of 5 different categories from GitHub. It has a battle feature that clashes two GitHub profiles.
- I used react fundamentals i.e **react class component** and **state management**. Advanced react concept i.e **Higher-order components and Render prop style** to build the app.
- I learned to write clean react app while adhering to standard practices and **build production-ready** react apps.

NOW THAT'S DELICIOUS!

- A web application where brands will upload their venture and customers will review and rate them.
- **Creating a profile, adding and updating a store, reviewing, rating and liking the stores** are some of the features of the website.
- The **web application leverages NodeJS, Express web framework, MongoDB and Jade templating engine** to build webpages on the server.

TRAVEL APP

- A web application integrated with Geo-Location and Weather API to forecast user's destination.
- Webpack module bundler is used to build the application.
- I utilized various webpack plugins to bundle JS and SCSS files and leverage a few additional features.
